Relation	Illness	Age at Death													

What operations have you had? Please list in date order	Date

SUMMARY CARE RECORD – PLEASE READ CAREFULLY

A very small amount of your information is held by the NHS nationally. This is known as your Summary Care Record. Unless you specify otherwise we share information about your current medication and any allergies or adverse reactions to medication you may have.

This information provides authorised care professionals working elsewhere in the NHS with faster, secure access to essential information about you when you need care but it will only be viewed once you have been asked to give your permission to view. The ONLY exception to this is if a clinician believes that the information is important to him/her and you are unable to give permission, for example if you are unconscious. If your record is viewed, the surgery is notified and, if we believe it to be unlawful, we can investigate.

You can choose whether you want a Summary Care Record and how much information it contains.

	Please tick ONE option below
I would like a Summary Care Record with Additional Information. <i>This record includes any medications you are taking, allergies, adverse reactions as well as significant medical history (past and present), reasons for medications and care plan information (if any).</i>	<input type="checkbox"/>
I would like a Summary Care Record with Core Information only <i>This record ONLY includes any medications you are taking, allergies you suffer from or adverse reactions</i>	<input type="checkbox"/>
I do not want a Summary Care Record <i>No Summary Care Record will be created for you, but you are free to change your decision at any time by informing your GP practice.</i>	<input type="checkbox"/>

Carisbrooke Surgery New Patient Questionnaire

(For Patients aged 16 and above)

ACCEPTABLE BEHAVIOUR CONTRACT

As a new patient you are welcomed to this surgery in which you can be assured of the very best of medical attention from our dedicated team.

We are committed to promoting access to our services and offering choice wherever possible in the services we provide and the way we deliver them.

Please make a note of your appointment time and, if you are unable to keep it then please let the reception staff know so that we can re-allocate your time to another patient.

Patients who persist in failing to keep appointments, whether they be for a Doctor, Nurse or HCA will be asked to re-register elsewhere.

Parents or guardians of young children will be asked to sign a form of consent to their child being immunised against the common childhood illnesses. Doctors and Nurses are happy to advise if any doubts are held about the suitability of their child for the immunisation programme and parents will be able to withhold consent if they have strong views against immunisation, however, unless they have withheld consent for whatever reason, parents are asked to keep child health surveillance and immunisation appointments or notify the surgery that they are unable to attend for any particular appointment.

An acceptable behaviour contract is an individually written agreement between a patient and their GP practice.

The surgery aims to:

- Help you as a patient to access our services
- Offer you choices where available
- Deal with your requests quickly and fairly as soon as possible
- Be polite and helpful to you

In return, we expect you as a patient to:

- Treat staff fairly and politely, whether on the phone, face to face, in writing, or on social media
- Use our complaints policy if you need to raise concerns about our care or service
- Attend your appointments, giving as much notice as possible if you are ever unable to attend
- Allow us three working days notice of any repeat prescriptions that you need

To avoid putting your place as our patient at risk, we ask you not to:

- Use abusive or threatening language
- Make threats, be violent or aggressive
- Fail to attend appointments

We appreciate your helping us to help you.

Declaration: I confirm that I understand the meaning of this contract and the possible consequences of breaking the conditions of the contract.
